Once upon a time, young boy Felix lives in a convent orphanage high in the mountains in Poland.

Felix is an optimist, according to author Morris Gleitzman. He has always been such an optimist. After being rescued from war-torn Poland by the French, Felix moves to Australia at the age of 16. He quickly adapts to his new life and becomes involved in the activities of the people around him. Felix is a character who draws on his own strength to help himself and others.

Felix considers himself lucky in many ways. He once woke up and found himself at home in bed, with his dad away. This was something he had never experienced before.

Felix's escape attempts are often fraught with danger. He once tried to use a false passport to leave the country, but was caught by the authorities. Despite this initial setback, Felix continues to try and find a way out of his困境.

Morris Gleitzman was born in Sleaford, England in 1953. He arrived in Australia with his family when he was 16. After university, he worked for ten years as a screenwriter. He then had a wonderful experience, which led him to write a novel for young people. Now after 40 books, he is one of Australia's most popular children's authors.

Gleitzman's writing is known for its ability to couch highly sensitive topics and conflicts in chaotic situations peppered with amusing dialogues. He has gained recognition for sparking an interest in AIDS in his controversial novel Two Weeks with the Queen (1990).

Gleitzman was appointed as the Australian Children's Laureate for 2018-2019, and his new book, Grace, is a powerful story of a 16-year-old volunteer and his horse in World War I and the journey towards his own kind of bravery.

Gleitzman's books have been translated into several languages and have gained recognition both in Australia and internationally. His success is attributed to his ability to make touchy subjects approachable through amusing dialogue and relatable characters.
