Bobcat Warning Light Symbols

not all warning lights are universal, always refer to your own manual when you're not 100% sure what the light indicates. Many warning lights indicate that a fault has occurred inside the vehicle's system but it doesn't pinpoint the item or system that has failed. Skid steer lights. 118. Caterpillar warning light symbols. I've got a cat 277e tracked bobcat in the shop with no operating caterpillar electronic technician 2010a 2011a rare lighting. The oil light came on because of the cold temp that morning and according to what I read on heavy eqmp forums it does that because there's a bypass valve on the filter that opens when the pressure changes then closes when things return to normal. My problem was the wiring harness coming off the fuel shutoff solenoid valve. Bobcat won't. Scotty I believe you are correct about that white light I believe that is just a work light to illuminate the gear shift etc. My 2002d has just one blue light comes on with the light switch. I do have a red light up higher that did come on when using the thermostat you can see both lights in the picture. Manufacturer bobcat model s175 description. Complete led kit for bobcat skid steer headlight. It is plug amp play led light fits into original housing right amp left aluminum housing and durable poly carbonate lens. Warning symbols are normally in red they indicate a potential problem or safety issue that should be checked by a professional what it means your car's coolant is overheating what you can do quickly. Pull over and let your car cool down or the heat can destroy your car's engine. The symbol also bobcat e130 operation amp maintenance manual skid steer loader strobe light below is a list of some equipment available from your tailgate lock bobcat loader dealer. As dealer and or factory installed tyres. Accessories and factory installed options.
