By Ivo Andric

Summary: A vivid depiction of the suffering history has imposed upon the people of Bosnia from the late sixteenth century to the beginning of World War I. The bridge on the Drina earned Andric the Nobel Prize for Literature in 1961. A great stone bridge built three centuries ago in the heart of the Balkans by a grand vezir of the Ottoman Empire dominates the setting of Ivo Andric's novel. The dreadful events occurring in Sarajevo over the past several months turn my mind to a remarkable historical novel from the land we used to call Yugoslavia.
