Anodizing Meta Title Har Conn Aerospace
April 11th, 2019 - Anodizing. Anodizing is the electrochemical process by which the surface of certain metals, primarily aluminum, along with magnesium and titanium, is converted into an oxide.

Becoming an Approved Boeing Bonding Facility for all
April 17th, 2019 - All the tests we've had to do are per ASTM's SACMA's or other Boeing specs that use ASTM fixtures and none have been as weird as this one you are describing. The only thing I can tell you is to ask Boeing for their design of the fixture stating you want to make sure you fab it the same way they did so the test results can be compared correctly.

Boeing Specification Cross Reference Index
April 15th, 2019 - The FEA is a business-based framework for cross team and Boeing of interrelated reference models designed to facilitate cross agency analysis and the PART I SECTION C Federal Aviation Administration.
