At independence in 1966, Botswana rapidly became one of the world's development success stories, with its long history of stable democracy. Botswana is a strong ally of the United States throughout most of the last half-century. The country has experienced robust economic growth and is now considered a middle-income country. Although there are concerns about the economy's dependence on diamond mining, other countries might have invented the safari but Botswana has perfected it. The combination of epic wildlife populations in the Okavango Delta, Moremi Game Reserve, and Chobe National Park, with the world's largest network of salt pans in Makgadikgadi Pans and the desert specialist animals of the Kalahari, makes for endless Botswana safari packages and possibilities.
