It needs to be replaced before I can get my car inspected to get it plated. I have found a few different diagrams online for where it could be. One of them said it is on the fuel pump assembly which you can cut. Fuel tank pressure sensor find answers to your 2005 Cadillac STS question from certified mechanics and auto experts. Were is the fuel tank pressure sensor located on a 05 Cadillac STS 2005 Cadillac STS, Equip cars, trucks, and SUVs with 2008 Cadillac CTS Evap Fuel Tank Pressure Sensor from Autozone. Get yours today. We have the best products at the right price. Advance Auto Parts has 1 different fuel tank pressure sensor for your vehicle ready for shipping or in-store pick up. The best part is our Cadillac CTS fuel tank pressure sensor products start from as little as 42.99 when it comes to your Cadillac CTS, you want parts and products from only trusted brands. Source CTS Check Engine Light Code P0451. Hi, the fuel pressure sensor is part of the fuel pump assembly. You will have to remove the fuel pump to replace this. I would go ahead and replace the fuel pump while you are there. You will have to pull the strainer off the fuel pump and discard it, like all OBD II trouble codes P0451 has the same meaning for all vehicles. It means that your Cadillac CTSS Evap system has a pressure sensor that is malfunctioning in some way. P0451 is usually caused by either a bad evap pressure sensor, a clogged fuel tank relief valve, evap lines, evap wiring, or a bad fuel cap. Astela BiService in Sweden changes an FTP sensor within a few minutes just by hand. Code P0451. https://www.facebook.com/pages_ASTELA_BISERVICE/62157499460, the fuel filter on the Cadillac CTS is a silver cylinder about two inches in diameter and three inches long designed to catch any debris from the gas tank before it goes into the cars carburation system. The fuel filter can become clogged causing the car to stall out or run rough. You can remove the fuel...
