This chart was created with the purpose of helping companies analyze their different business units or product lines. What is the BCG matrix analysis? The BCG matrix is a business method that was created by the Boston Consulting Group in the 1970s. This business method bases its theory on the life cycle of products, also known as the Boston Box or grid. BCG charts are divided into four types of scenarios: stars, cash cows, dogs, and question marks. The Economist Intelligence Unit (EIU) is the world leader in global business intelligence. We help businesses, the financial sector, and governments to understand how the world is changing and how that creates opportunities to be seized and risks to be managed. Strategic management integrates intuition and analysis, adapting to change.

Key terms in strategic management include competitive advantage, strategist's vision, and the strategic position and action evaluation. BCG matrix 177. The BCG matrix provides a framework for senior management in allocating resources across business units in a diversified firm by balancing cash flows among business units and balancing stages in the product lifecycle. The building blocks of strategy shed fresh light on what strategic planning should and shouldn't try to do. For starters, we emphasize that periodically—perhaps as often as every three to five years if new competitors arrive or markets unexpectedly shift—companies must re-create their strategies. The corporate Ansoff matrix lets us examine each quadrant of the matrix in more detail. Market penetration in the lower left quadrant is the safest of the four options. Here, you focus on expanding sales of your existing product in your existing market. You know the product works, and the market holds few surprises for you.
